CAREER DEVELOPMENT

LandTrust - The Recreational Access Network

Software Engineer I - Remote

June 2023 - July 2024

- Created premium subscription with features including automated property updates, status posts, custom notifications, a checkout page, a sales page, and more. Became one of the most used features on the application.
- Developed a new homepage with sections that display packages based on the user's IP address, recently viewed packages using local storage, and a custom image carousel.
- Designed a new system and protocol to manage incoming bugs and feature improvements, completely eliminating our backlog of over 200 bugs.

ByteSpeed

Focus Group Coordinator – Moorhead, MN

2019-2020

- Managed the effectiveness and efficiency of a 20-person focus group that included professors and teachers in the basics of virtual reality (VR) programs.
- Management of resources and feedback in the development of VR to companies for their use.
- Provided excellent communication and organization of summarized feedback reports to various VR companies.

Window Cleaning Business

Owner/Operator - Fargo, North Dakota

2017-2022

- Developed a profitable window washing service model to serve a variety of homeowners.
 - Scrubbed, washed, or cleaned windows and glass partitions, using appropriate cleaners with squeegees and sponges.
 - Inspected and corrected any errors that might be overlooked in the initial cleaning of employees.
 - Requisition supplies or equipment needed for cleaning and maintenance.
-

EDUCATION

Emerging Digital Academy

- Developed a secure web application to track earning reports of 2,500 companies, displaying real-time price changes and up-to-date news reports using APIs.
- Presented a secure web application to 30 Facebook Live attendees.
- Developed a task management system for a non profit organization, which drastically increased efficiency, workflow, and organization for their business.

North Dakota State University - Undergraduate Finance

University of St. Thomas - Undergraduate Finance
